

KUWAIT

PUBLIC ADVISORY

SOCIAL MEDIA ETIQUETTE

The Philippine Embassy wishes to inform the Filipino Community in Kuwait to be advised on the following reminders for Social Media Etiquette with the cooperation of www.kabayaninkuwait.com

1. Avoid vulgar language or threats.
2. When posting status make sure that it contains only the truth; it can help and inspire other people so their lives can be better.
3. When on vacation (local or international) be careful not to go into so much details; hotel where you are staying, places you go to, because without you knowing it, you give away your privacy to the worldwide web and this is unsafe.
4. Do not post signed contracts, copies of Civil IDs, Passports and other important documents because these documents bear very important details and if captured by others who have knowledge in forgery, you will be compromised.
5. Do not post pictures of yourself in very revealing clothes or attire, or provocative poses and videos.
6. As much as possible, use the "PM" or personal message and write to trusted friends only. They can help you and keep you safe, too.
7. As much as possible, we can be sympathetic to the plight of the traumatized but make sure to post with concern and make it only once, to secure the person's privacy.
8. All of us here in Kuwait are a part of a group, a community, a household, a company. What we post on our social media pages affects not only our personal life but our professional life as well.

While we want to exercise our freedom of speech, we must not forget what we post on our social media accounts / pages affect not only ourselves, but others, too.

Thank you very much.

RAUL H. DADO

Chargé d'Affaires, a.i.
